- (b) products obtained in Montenegro incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Montenegro within the meaning of Article 6;

Article 3

Cumulation in Montenegro

Without prejudice to the provisions of Article 2(1), products shall be considered as originating in Montenegro if such products are obtained there, incorporating materials originating in Ukraine, provided that the working or processing carried out in Montenegro goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.

Article 4
Cumulation in Ukraine

Without prejudice to the provisions of Article 2(2), products shall be considered as originating in Ukraine if such products are obtained there, incorporating materials originating in Montenegro, provided that the working or processing carried out in Ukraine goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.

Article 5
Wholly obtained products

1. The following shall be considered as wholly obtained in Montenegro or in Ukraine:

The conditions referred to above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 per cent of the ex-works price of the product;
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonized System.

3. Paragraphs 1 and 2 shall not apply subject to the provisions of Article 7.

Article 7

1. The unit of qualification for the application of the provisions of this Annex shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System.

It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
- (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Annex.

2. Where, under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Article 11

Neutral elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

(a) the returning goods are the same as those exported; and

(b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside Montenegro or Ukraine on materials exported from Montenegro or from Ukraine and subsequently re-imported there, provided:

(a) the said materials are wholly obtained in Montenegro or in Ukraine or have undergone working or processing beyond the operations referred to in Article 7 prior to being exported;

and

(b) it can be demonstrated to the satisfaction of the customs authorities that:

done outside Montenegro or Ukraine. 5. For the purposes of applying the provisions of paragraphs 3 and 4, 'total added value' shall be taken to mean all costs arising outside Montenegro or Ukraine, including the value of the materials incorporated there.

6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Appendix II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6(2) is applied.

Originating products may be transported by pipeline across territory other than that of Montenegro or Ukraine.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

- (a) a single transport document covering the passage from the exporting country through the country of transit; or
- (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;
and
 - (iii) certifying the conditions under which the products remained in the transit country; or
- (c) failing these, any substantiating documents.

Article 14
Exhibitions

1. Originating products, sent for exhibition in a country other than Montenegro and Ukraine and sold after the exhibition for importation in Montenegro or in Ukraine shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:
- (a) an exporter has consigned these products from Montenegro or from Ukraine to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in Montenegro or in Ukraine;
 - (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;
- and
- (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin must be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

1. Non-originating materials used in the manufacture of products originating in Montenegro or in Ukraine for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in Montenegro or in Ukraine to drawback of, or exemption from, customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in Montenegro or in Ukraine to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the certificate of origin EUR.1 shall be indicated in Box 11 of the certificate.

7. A certificate of origin EUR.1 shall be issued by customs authorities of the exporting country according to its domestic law and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Certificates of origin EUR.1 issued retrospectively

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances;

or

(b) it is demonstrated to the satisfaction of the customs authorities that a certificate of origin EUR.1 was issued but was not accepted at importation for technical reasons.

Article 21

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may, at the written request of those concerned, authorise the so-called "accounting segregation" method to be used for managing such stocks.

2. This method must be able to ensure that, for a specific reference-period, the number of products obtained which could be considered as "originating" is the same as that which would have been obtained if there had been physical segregation of the stocks.

3. The customs authorities may grant such authorisation, subject to any conditions deemed appropriate.

4. This method is recorded and applied on the basis of the general accounting principles applicable in the country where the product was manufactured.

5. The beneficiary of this facilitation may issue or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

6. The customs authorities shall monitor the use made of the authorisation and may withdraw it at any time whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Annex.

Article 22

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:

(a) by an approved exporter within the meaning of Article 23,

or

(b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6,000.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in Montenegro or in Ukraine and fulfil the other requirements of this Annex.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Annex.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Appendix IV, using one of the linguistic versions set out in that Appendix and in accordance with the provisions of the domestic law of the exporting country. If the declaration is hand-written, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 23

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter, hereinafter referred to as 'approved exporter', who makes frequent shipments of products under this Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Annex.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 24

Validity of proof of origin

1. A proof of origin shall be valid for six months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 26

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 27

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as

originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Annex and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document, which should be accepted by customs authorities.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1,200 in the case of products forming part of travellers' personal luggage.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 22(3) used for the purpose of proving that products covered by a certificate of origin EUR.1 or an invoice declaration can be considered as products originating in Montenegro or in Ukraine and fulfil the other requirements of this Annex may consist *inter alia* of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;

4. The customs authorities of the importing country shall keep for at least three years the certificates of origin EUR.1 and the invoice declarations submitted to them.

Article 30

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Free Trade Committee at the request of Montenegro or of Ukraine. When carrying out this review, the Free Trade Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.
