## **Ministry of tourism of the Republic of Montenegro and the Tourism Organisation of Montenegro**

*Environmental orientation of a destination is no advantage over the competition. The market takes it for granted. Destinations not accounting for that are at risk of losing their clients. East Adriatic coast lives, from the tourism point of view, of its beautiful scenery and famous crystal clear water. Its pollution would have awful consequences to the demand. Environmental orientation includes protection and preservation of nature (dumps, illegal construction, architecture and construction material), renewable energy sources, protection from noise pollution and social responsibility. These issues are not the concern of suppliers only. Tourists themselves have to behave in an environmentally safe way.*

*To experience beautiful, unspoilt nature today belongs among three basic needs of German as well as Central and North European similarly oriented tourism markets. In reports of holiday experiences, with 77%, nature and scenery top all other issues. From this aspect and because of the responsibility towards future generations, the concept of sustainable development, as was decided by United Nations in 1992 in Rio with the Agenda 21, makes the basis of strategic ideas.*

*(An excerpt from the Master plan for the development of tourism by the year 2020)*

# PREPARATION OF THE SUMMER TOURIST SEASON ACCORDING TO ESTIMATES

At its press conference held on 25th May this year, the Ministry of Tourism presented the implementation progress of their action plan for the preparation of this year tourism season. On the occasion they reported that the projected 8% increase in overnights and 10.4% increase in tourism revenue, compared to last year, is already being realised. So far 9% more tourists have visited Montenegro than last year during the same period. There has been 7% more foreign and 12% more domestic visitors. It is a good sign that the projections for the season 2004 will be realised, expecting the revenue of 203 million euros, or 10.4% more than in 2003, visitor exports up to 29% of total exports and 500 new jobs generated in tourism this year.

Minister of Tourism, Mr Predrag Nenezic, said that so far some 40 million euros have been invested in the reconstruction of privatised hotels that will, together with training of personnel, solving the most urgent problems in road traffic and improving water supply, contribute to higher quality of tourism offer in Montenegro. Water supply at coastal municipalities will be much better this year, since some 20% more water than last year has already been provided. As for road infrastructure, it is currently being repaired and by 15th June all the problems there will have been eliminated. It means that by that time 11 critical points between Podgorica and Kolasin

will have been restored and altogether 10 million euros will have been invested.

The Minister of Tourism, Mr Prerag Nenezic pointed out that the high degree of correlation between hotel privatisation and significant increase in tourism turnover from foreign markets has already been confirmed. In 150 categorised establishments, the total number for this season, the quality of offer has been upgraded, already having tangible results. The changes in legal framework will also contribute to the product quality. Tourism signposting project will be completed at all roadways, with necessary repairs to previously set signs. It has been announced that coastguards will have been established by the beginning of the summer to guarantee safety of navigation and of swimmers. Moreover, four credit lines for tourism are currently being realised.

Mr Vojin Vlahovic, director of the National Tourism Organisation informed the journalists of the strategic partnership between the Ministry of Tourism and NTO. He put special emphasis on the importance of PR and promotional activities that have particularly been effective through campaigns, like the most prominent one for this year "A Year of Good Food - Let it Do You Good!".

Emphasising that all the planned activities have been going according to plans, the Deputy Prime Minister, Mr Branimir Gvozdenovic pointed out that already the summer season 2005 is being prepared and within those activities he announced new facilities at the airports of Tivat and Podgorica, completion of Sozina tunnel and the access roads, and also announced more intensive preparations in railway and marine transport.

## OUTCOMES OF THE SEASON 2003

The aims set in the Economic Policy of the Government of Montenegro for the year 2003 have been achieved:

10 % more visitors compared to the year 2002, or 600,000 visitors

7.8% more overnights compared to the year 2002, or 4,000,000 overnights

Tourism revenue amounted to 190 million euros

Tourism contributes 14.4% to total GDP.

## FIGURES FOR THE DAY 28. 05. 2004

11,202 tourists or 27% more than on the same day last year

4,142 foreign visitors or 56% more than last year

9,740 domestic visitors or 15% more than last year

## ESTIMATES FOR THE SEASON 2004 Ministry of Tourism and WTTC

8% increase in the number of overnights compared to year 2003

Tourism revenue – 203 million euros, or 10.4% more than in 2003.

Tourism – 29% of total exports of Montenegro

500 new jobs in 2004.

14.8% contribution of travel& tourism to GDP.

## "CYCLING TO GET TO KNOW MONTENEGRO" CAMPAIGN

From 12 to 19 May this year 300 tourists from Germany cycled along the coast of Montenegro from Herceg Novi to Ulcinj. The sponsors of this event were the Ministry of Tourism and the National Tourism Organisation. The logistics was covered by the TA "Adriatic Express" from Budva. The Ministry of the Interior was also included in the organisation of this event.

The participants stayed at Slovenska plaza in Budva and every day covered smaller routes along the coast. The cyclists were accompanied by TV Budva and every day the event was broadcasted on German televisions. Apart from its commercial effect, this campaign entitled "Let's get to know Montenegro by cycling" is good for promotion, having in mind that these visitors came from a very important German market.

## **WATER SUPPLY PROJECT**

Problems with water and energy supply and cleanliness must be resolved in order for Montenegrin tourism to be not only the potential of growth for Montenegro, but this opportunity to be fully used and contribute greatly to economic development.

### **Current project stage**

- Financial and technical concept adopted and the Consortium of banks established.
- Works done in 6 municipalities so far amount to 2.8 million euros.
- Better collection in the first three months of 2004 compared to previous years for 30%.
- For urgent measures – 6 million euros.
- 20% more water at local supply networks.
- Favourable hydro-meteorological situation and urgent measures will result in reducing shortages to one half during the season.

# Tourism Council established

Coordination body for monitoring and coordinating the implementation of the Tourism Master Plan and innovations in Montenegrin tourism product was renamed into Tourism Council of the Government of the Republic of Montenegro on its session of 27 May this year chaired by the Deputy Prime Minister, Branimir Gvozdenovic.

Tourism Council, with some new members, should contribute to the increase of tourism turnover and the contribution of tourism to GDP, creating conditions more conducive to investments, profiling Montenegro as a European and Mediterranean destination and upgrading services.

The Council will propose to the Government a number of amendments

to regulations and other measures aimed at enhancing current investments and create space for new ones. Already the activities relating to physical planning have been initiated. It is expected that the members of this body should use their knowledge and skills to propose solutions that would eliminate certain problems which are partly a limiting factor to intensive investments.

According to the minister of tourism, Predrag Nenezic, as of this year the tourism satellite accounting system, which has proved successful in 175 countries, will be used in Montenegro. It is the methodology of the World Travel and Tourism Council, whose first report for Montenegro shows that last year tourism accounted for 14.4% of GDP, and this year will rise to 14.8%. It is forecast-

ed that in the next ten years tourism will account for 22% of GDP. The minister announced detailed presentation of the report the following month in the presence of the chairman of the Tourism Council.

The Council also adopted the Action Plan for the preparation of the coming tourism season that has already been made public in Montenegro, then the document entitled Incentives for Investments in Tourism, the programme of strategic partnership of the Ministry of Tourism and the National Tourism Organisation with the businesses in Montenegro. The campaign "A Year of Montenegrin Cuisine" and the water supply project have also been presented to the Council.

## **PRES CONFERENCE OF THE MINISTER OF TOURISM, PREDRAG NENEZIC AND THE PRESIDENT OF "ROCKEFELLER BROTHERS" FOUNDATION, STEPHEN HEINZ ON SUSTAINABLE TOURISM DEVELOPMENT IN MONTENEGRO**

*Montenegro introduced sustainability as one of the basic concepts of its development. Since the adoption of Tourism Master Plan three years ago, the activities at the north of Montenegro have started. The Council for Sustainable Development accepted the proposed concept and the previous study of sustainable tourism development in the northern and central regions of Montenegro was given to the International Tourism Institute from Slovenia.*

*At the press conference held on 13th May this year, the Minister of Tourism, Mr Predrag Nenezic, pointed out that the collaboration of governmental and nongovernmental sector working jointly on this project is continuing, the project being only one segment of the overall programme of the Master Plan. He also emphasised the importance of the support provided by "Rockefeller Brothers" Foundation in implementing such a project. Stephen Heinz expressed his pleasure by the decision of the Government of Montenegro which not only recognised the importance of sustainability of environment for the wealth of a country and its population, but also invested great efforts into turning this vision into reality. Mr Heinz said that they were attracted by the constitutional provision declaring Montenegro an Ecological State.*

*Some of the funds needed for the preparation of the strategic framework for the development of sustainable tourism in northern and central regions of Montenegro should set guidelines for the development of the "wild beauty". This foundation is interested in supporting, through sustainable development projects, also the areas of education, forestry and energy in Montenegro. - You have a lovely country and extraordinary natural and human resources. It is a privilege for us to be involved in this project for which we had made sure that it had the support of both the people and the government of Montenegro, said Mr Stephen Heinz.*

*"Rockefeller Brothers" Foundation president pointed out that the total amount of the project, including all the donors, totals over three million euros and that this foundation had no profit whatsoever from it. He emphasised that they decided to support the project of the development of sustainable tourism at the northern and central regions of Montenegro, not the coastal region that is much more important from the tourism point of view, to set an example to the others.*

## MONTENEGRO VISITED BY CONSULAR CLUB

22-23 May

**A**t the initiative of the Ministry of Foreign Affairs and the Ministry of Tourism the visit by the consular club from Belgrade was organised.

National Tourism Organisation was the organiser of the event on 21 and 22 May this year. About one hundred consuls and members of their families, stationed in Belgrade, visited Montenegro. On the occasion they visited Budva, Sveti Stefan, King Nikola's palace and the Arts Museum at Cetinje and sailed through Boka Kotorska Bay. a party was made in their honour at Sv. Stefan on 22 May, hosted by the Minister of Foreign Affairs, Dragisa Burzan and the Minister of Tourism, Predrag Nenezic.

Apart from the working part in which the Ministry of Foreign Affairs of Montenegro had to inform foreign consuls of the details of visa regime of Montenegro and offer reliable information on stay for foreign visitors in Montenegro, the aim of the visit was also for them to get to know Montenegro better and help promote the tourism offer of Montenegro in their respective countries.

north and south of MONTENEGRO. During the visit, on 20.04 a press conference was held at the Ministry of Tourism hosted by the director of NTO Vojin Vlahovic, deputy minister of tourism Zoran Duletic and spokesperson of the Ministry of Tourism Jelena Paovic.

## "Blue star", the first business hotel in Montenegro

The first business hotel "Blue star", owned by the company "Montenegro Stars Hotels Group" was opened on 31st May in Budva by the Minister of Tourism, Mr Predrag Nenezic.

It is a business garni hotel with 22 rooms and 4 suites. The hotel was bought last year by the above mentioned company, and the restoration started afterwards.

According to the director of the company,

Mr Zarko Radulovic, the adaptation and the purchase of modern equipment cost 2.5 million euros. He pointed out that "Blue star" will in future be the standard for quality in tourism, and offer something new in Montenegro.

At the opening ceremony, Minister Nenezic said that the company has achieved the objectives set during privatisation and that opening of the "Blue star" hotel is a sign that Montenegro is on the right path when it comes to national tourism policy.

## CATEGORISATION OF TOURIST RESORTS

THE PARLIAMENT OF MONTENEGRO, AT ITS SESSION IN FEBRUARY 2004, ADOPTED THE LAW ON TOURISM ORGANISATIONS. THIS LAW ENVISAGES THAT THE MINISTRY OF TOURISM IS COMPETENT TO CATEGORIZE TOURISM RESORTS. THUS, THE MINISTRY OF TOURISM ESTABLISHED A COMMISSION FOR CATEGORISATION OF TOURISM RESORTS.

**Bijelo Polje**

ASSESSING THE OPINIONS SUBMITTED BY EACH MUNICIPALITY AND BASED ON THE CRITERIA SET IN THE REGULATIONS FOR CATEGORISATION OF TOURISM RESORTS, THE COMMISSION PROPOSED THE CATEGORISATION ACCORDING TO FOUR CATEGORIES ("A", "B", "C", "D").

BASED ON THE PROPOSAL OF THE COMMISSION, THE MINISTER OF TOURISM PASSED THE ACT ON CATEGORISATION OF TOURISM RESORTS VALID FOR FIVE YEARS. IF DURING THIS PERIOD THE GIVEN RESORT MEETS THE CONDITIONS FOR DIFFERENT CATEGORY, AS RECOMMENDED BY THE COMPETENT LOCAL BODY, THE MINISTER, ON THE BASIS OF THE PROPOSAL BY THE COMMISSION, WILL PASS AN ACT RELATING TO THE CHANGE OF CATEGORY OF THE GIVEN RESORT.
